Kala Groundwater Consulting Ltd. (Kala) a geosciences consulting firm serving the BC Interior for over 25 years requires the services of an intermediate to senior level earth sciences professional for our Kamloops, BC office.

Kala provides consulting, hydrogeological and environmental services to a wide variety of BC Interior clients including municipal consultants, resorts, regional districts and First Nations. Kala offers outstanding opportunities for career advancement in a small office environment including advancement towards an equity position.

This position requires a combination of field and office work in a demanding consultative environment. The incumbent will be a registered professional engineer or geoscientist with a minimum of six years of experience. It is anticipated that the successful individual will plan and supervise fieldwork, evaluate collected field and laboratory information, prepare reports and liaise with clients. The following skills and experience are required:

- P.Eng/P.Geo APEGBC membership or equivalent from another provincial jurisdiction;
- Experience in groundwater, environmental and wastewater investigations;
- More than 6 years practical experience in geosciences; management experience desirable;
- Demonstrated ability to work independently and make responsible decisions ;
- Performance of soils investigations;
- Data analysis, and;
- Preparation of professional reports.

For complete and confidential details regarding the duties and responsibilities of the position, Kala background and a remuneration package please submit your resume to [info@kalagroundwater.com](mailto:info@kalagroundwater.com), or contact our office at 250-372-9194.
